Create | Modify | Compose | Export

Create

Quickly and effortlessly produce documents
from a wide variety of file types.

Word to PDF

Convert Microsoft Word files to PDF format.

Excel to PDF

Convert Microsoft Excel files to PDF format.

Images to PDF

Convert JPG, JPEG, PNG, BMP, and other images to PDF format.

Print to PDF

Convert to and from PDFs by printing to the efflux printer.

Composition

Compose new documents out of existing ones.

Images to Searchable PDF

Create searchable PDF from vector documents.

(eg: tiff, scanned document). Output includes PDF/A-2B, PDF/A-2U, PDF/A-3B, PDF/A-3U

Outlook Capture

View and export emails and attachments directly from Microsoft Outlook.

Workflows

Do you have a set of functions you must perform repeatedly? Create workflows which allow you to define the output format, OCR language, redaction and highlight regions, output destinations such as SharePoint and DocVolante, and more.

Modify

Easily reconstitute documents by removing, adding or rotating pages or even cutting out unwanted sections.

70gsm A4 paper (4500 sheets)	10	$3
90gsm A4 paper (4500	10	$3
		Total
Signature		Date
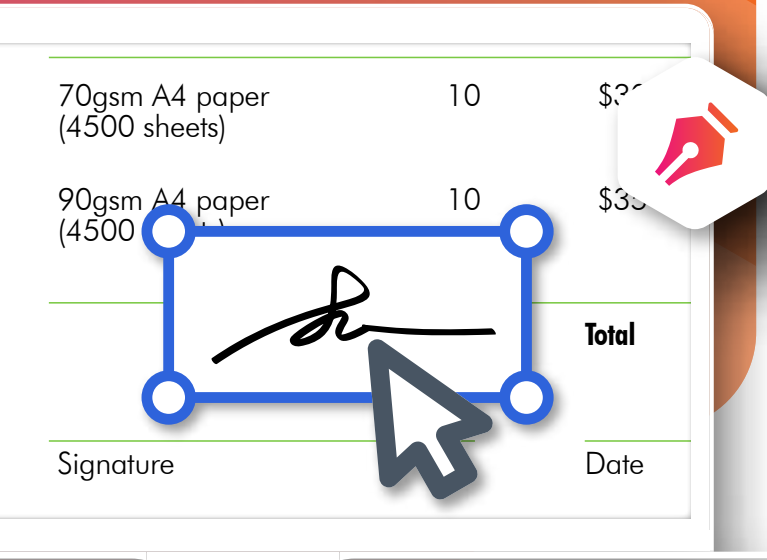

Document Annotation

Add annotations, such as, textbox, stamps, signatures, initials, redaction and highlight areas and key words or phrases.

Image Processing

The document page in the composition panel allows image processing features such as deskew, binarization, denoise, smoothing, invert, dot removal & line removal.

Remove Pages

Remove Pages from your PDF document.

Rotate Pages

Adjust the orientation of selected pages in the document.

## Reorganize Pages

Rearrange pages in PDF documents.

Add PDF Pages

Insert additional pages into your PDF document.

Compose

Compose new documents by splitting, combining or OCRing existing documents.

Split PDF

Separate a PDF document into individual documents.

Merge Files

Create a PDF document by merging multiple files together.

Cropping

Keep only the part of the page you want.

Recognize Text

Convert scanned text to editable format using OCR.

Export to DMS

Seamless integration with different DMS such as SharePoint and DocVolante.

PDF to Word

Convert PDF documents to Microsoft Word documents.

PDF to Excel

Convert PDF documents to Microsoft Excel documents.

Export

Export your documents to any of the many supported formats such as Microsoft Word and Excel.
